

PlanO – Vetted Provider Charter

Purpose of this Charter

This document defines the principles, obligations, and privileges associated with being a PlanO Vetted Provider. It is designed to establish a clear, enforceable, and mutually beneficial relationship between PlanO and its professional partners.

What 'Vetted Provider' Means

A PlanO Vetted Provider is a construction company that has passed PlanO's due diligence process and is authorized to receive paid, pre-qualified client projects through the PlanO platform. Vetted status is a privilege, not a right, and is continuously monitored.

Privileges Granted

- Access to paid, pre-qualified client leads
- Eligibility for repeat and higher-value projects
- Right to present as a 'PlanO Vetted Provider'
- Access to material supply partnerships and margins
- Ability to onboard own clients via PlanO and receive revenue share

Obligations & Commitments

- Honor PlanO-generated estimates unless scope changes are formally documented
- Respect PlanO pricing discipline and transparency rules
- Do not undercut or bypass PlanO pricing off-platform
- Engage professionally with clients introduced via PlanO
- Accept audits and performance reviews when required

Compliance & Monitoring

PlanO continuously monitors provider performance using behavioral, operational, and client-feedback signals. Compliance is assessed based on adherence to process, pricing integrity, and client outcomes.

Sanctions & Loss of Status

- Formal warning for minor breaches
- Temporary access restrictions for repeated issues
- Removal of 'Vetted Provider' status
- Delisting from the PlanO platform

Non-Negotiable Principle

PlanO exists to protect pricing integrity, client trust, and execution quality. Any behavior that undermines these principles is incompatible with Vetted Provider status.

Acknowledgment

By participating as a PlanO Vetted Provider, the company acknowledges and accepts the principles outlined in this Charter as a condition of ongoing participation.
